

CONTAINER SEALS

BEDNORZ SEAL

Bednorz Seal - Versatile and Secure The Bednorz Seal is designed for securing TIR cable end pieces, tarpaulin trucks, box trucks, rail wagons, tankers, containers, and various packages. Made from matt galvanized sheet steel, it offers high tamper-resistance with a one-piece design. The Bednorz Extension allows for variable lengths and adapts to small sealing openings. It features secure closure with a "click" sound and custom marking options. Removal requires a side cutter, ensuring tamper-proof security. Ideal for transportation, logistics, and security-sensitive cargo.

Selling units: 100 pieces

BEDNORZ BARCODED 128 SEAL

The Bednorz metal band seal is a highly secure, tamper-resistant solution made from matt-galvanized sheet steel. Designed for versatility, it can be cut to length and used with the Bednorz extension as an adapter for small openings. Its one-piece construction prevents reassembly, and a secure closure mechanism—audible with a “click”—ensures tamper-evidence by leaving no room for tool manipulation. Standard markings include a letter and 7-digit serial number, with optional text embossing or laser-inscribed barcodes. For removal, a side cutter is required, ensuring both security and integrity in transport or storage.

Selling Unit: 100 seals (SKU:3.00.002.M.BC)
